Work experience

"LLC WAA" - Javascript developer

04.2022 - 07.2023

- Created modern and responsive layouts based on designs and messaging provided by the creative team
- Developed new features, enhance existing features, and implement bug fixes for code
- Self-document development processes, and gave actionable feedback
- Worked as part of a team of front-end web developers and back-end software engineers to meet various sprint and project deadlines

"Elit-taxi" - Frontend developer

02.2021 – 03.2022

- Developed UI components using React and Redux
- Built reusable code for future uses.
- Ensured the technical feasibility of UI/UX designs
- Optimized application for maximum speed and scalability.
- Maintained frontend infrastructure, monitor for exceptions in the code, and debug any faults that occur in production
- Supported an SPA admin panel integrated with microservice backend
- Collaborated with cross-functional teams to ensure consistency in UI design and functionality

Frontend developer
Freelancer, Kyiv

07.2020 – 09.2020

Created interactive elements on each page, such as dropdown menus, tabs, accordions, and modals, using

HTML, CSS, and Javascript for website.
Ensured that the website is responsive and mobile-friendly and that it adheres to web accessibility standards
Developed tests for existing code to catch bugs and ensure the software is secure and stabled

Frontend developer

Freelancer, Kyiv

05.2020 – 06.2020

Created a visually appealing and responsive login page

Develop validation of the user credentials and authenticate their access to the web application

Ensured involved sending HTTP requests to the server-side code to check the user's credentials against a database of registered users

Implemented responsive design and cross-browser compatibility

Collaborated with cross-functional teams to ensure consistency in UI design and functionality

Frontend developer

Freelancer, Kyiv

12.2019 – 04.2020

Designed, developed and optimized web site using HTML, CSS and JavaScript

Ensured high-quality graphics and visual elements are incorporated into website

Troubleshoot and debug front-end issues

Collaborated with designers and back-end developers to ensure seamless integration of UI components
